17 December, 2020

Dear Dr. Kongoli,

It is with great pleasure that I received the news that you were honored with the title of honorary citizen of the city of Rio de Janeiro. On behalf of Tohoku University, I would like to extend my sincere congratulations.

We are very delighted that you, who earned your doctoral degree at Tohoku University, have continued to contribute to science and technology by hosting the Sustainable Industrial Processing Summit & Exhibition for many years. It is an honor for us to think that our faculty and researchers may have contributed to your gaining insights and perspectives through your interacting with them, and that we may have contributed to what you have accomplished.

Once again, congratulations on receiving this prestigious title. I hope that you will continue to make contributions on a global scale.

Sincerely yours,

Hideo OHNO
President of Tohoku University
