

Principal Prof. Vanyukov' published R&D works

Monographs

1. Vanyukov A.V., Zaitsev V.J. Slags and Mattes in Non-ferrous Metallurgy // M.: Metallurgia.–1969.–406 p.
2. Vanyukov A.V., Zaitsev V.J. Theory of Pyrometallurgical Processes // College textbook, M.: Metallurgia.–1973.–504 p.
3. Vanyukov A.V., Isakova R.A., Bystrov V.P. Thermal Dissociation of Sulphides // Alma-Ata, Nauka, 1978. - 272 p.
4. Vanyukov A.V. Integrated Treatment of Copper and Nickel Raw Material. Part 1 // Alma-Ata, Nauka, 1980. - 272 p.
5. Vanyukov A.V. Integrated Treatment of Copper and Nickel Raw Material. Almaty, 1980. P. II
6. Kunaev A.M., Kozhakhmetov S.M., Vanyukov A.V. et al. Basis of Raw Material Use in Non-ferrous Metallurgy. Almaty, 1982, Publishing House 'Nauka Kazakhstan', 391 p.
7. Vanyukov A.V., Utkin N.I. Integrated Treatment of Copper and Nickel Raw Material // College textbook, Cheliabinsk, Metallurgia, Cheliabinsk Branch.–1988.–432p.
8. Vanyukov A.V., Zaitsev V.J. Theory of Pyrometallurgical Processes. // College textbook, Second edition, enlarged and revised // M.: Metallurgia.–1993.–384p.
9. Bath Smelting / A.V. Vanyukov, V.P. Bystrov, A.D. Vaskevich et al. Under the editorship of A.V. Vanyukov.– M.: Metallurgia.–1988.–208p.

The most denoted articles

1. Vanyukov V.A., Vanyukov A.V. Revisiting the Problem of Decreasing Nickel Losses to Dump Slag // Tsvetnye Metally. - 1955. – No. 4. - P. 9-17
2. Vanyukov A.V., Utkin N.I. Concerning Slag Melts' Surface Tension. Proceedings of MICMiZ (Moscow Institute of Non-Ferrous Metals & Gold named after M.I. Kalinin). 1957, No.26, P. 41-53.
3. Vanyukov A.V., Odinets Z.K. Concerning Types of Metals Loss to Slags // Izv. VUZov (Colleges News). Tsvetnye Metally - 1958. – No.5. - P. 27-37
4. Vanyukov A.V., Utkin N.I. Effect of Temperature on Surface Tension of Silicate Melts. Izv. VUZov (Colleges News). Tsvetnaia Metallurgia, 1958, No.6, P. 43-48
5. Vanyukov A.V., Odinets Z.K. Ferric Sulphide Distribution between Matte and Slag. Izv. VUZov (Colleges News). Tsvetnaia Metallurgia, 1960, No.4, P.45-48.
6. Vanyukov A.V., Popkov A.N. Study of Surface Behaviour of Sulphide-Metal and Silicate Melts. Izv. VUZov (Colleges News). Tsvetnaia Metallurgia, 1961, No.4, P.63-70
7. Popkov A.N., Vanyukov A.V. Izvestia VUZov (Colleges News). Tsvetnaia Metallurgia, 1961, No.6, P.26-29
8. Vanyukov A.V., Zaitsev V.J. Study of Densities, Surface and Interphase Tensions in the Copper Matte – Silicate Melt System. Izv. VUZov (Colleges News). Tsvetnaia Metallurgia, 1962, No.4, P.80-85
9. Bystrov V.P., Vanyukov A.V., Zaitsev V.J. Density and Molar Volume of Copper and Copper – Lead Mattes. Izv. VUZov (Colleges News). Tsvetnaia Metallurgia, 1964, No.4, P. 60-64
10. Vanyukov A.V et al. Concerning Certain Reasons of High Metal Losses to Slag at Lead Agglomerate Smelting. Tsvetnye Metally, 1964, No.8, P. 27-33

11. Vanyukov A.V., Bystrov V.P., Zaitsev V.J. Study of Melts' Surface Behaviour Typical for Lead Metallurgy. In the Collection: Surface Phenomena in Melts and in Solid Phases Occurring Therein. Nalchik, 1965, P. 312-325
12. Zaitsev V.J., Vanyukov A.V., Kolosova V.S. Concerning Interaction of Ni₃S₂ – FeS and Cu₂S – FeS Sulphide Systems with Ferro-silicate Melts. Izv. AN SSSR (USSR Academy of Sciences' News). Metally, 1968, No.5, P. 39-45.
13. Vanyukov A.V., Bystrov V.P., Snurnikova V.A. Phase Equilibria in Copper – Sulphur System // Tsvetnye Metally. - 1971. – No.11. - P. 11
14. Tsesarsky V.S., Zaitsev V.J., Vanyukov A.V. Magnetite Solubility in Slag Melts. Tsvetnye Metally, 1972, No.1, P. 29-31.
15. Vanyukov A.V., Kunaev A.M., Takezhanov S.T., Bystrov V.P., Kozhakhmetov S.M. et al. Furnace for Sulphide Material Continuous Bath Smelting. // Otkrytia. Izobretenia. (Discoveries. Inventions). 1975, No.22, P.82
16. Vanyukov A.V., Zaitsev V.J., Tsesarsky V.S. Metal Losses to Slags at Autogenous Smelting. // Tsvetnye Metally. 1977. No.3 P. 7-10.
17. Slag Formation at Converting / Zaitsev V.J., Vanyukov A.V., Vorobiev V.A. et al. // Tsvetnye Metally. – 1977. – No.10. – P.20-24
18. Vanyukov A.V., Bystrov V.P., Vaskevich A.D. Smelting of Heavy Non-ferrous Metals in Melt. Report at the Dusseldorf International Exhibition. – M.: MISiS (Moscow Institute of Steel & Alloys), 1979. - 21 p.
19. Vanyukov A.V., Vaskevich A.D., Fedorov A.N. Concerning Mixing Capacity of the Bubbling Bath. – Multipurpose Use of Mineral Raw Material, 1980, No.10, P. 21-25
20. Vanyukov A.V. Bath Smelting: Advantageous Method for Heavy Non-ferrous Metals Industry. Tsvetnye Metally, 1980, No.10, P.53-56.
21. Bystrov V.P., Vanyukov A.V., Vaskevich A.D., Fedorov A.N., Stroitelev I.A., Gritsai V.P. Study of Matte-Slag Emulsion at Bath Smelting. – Tsvetnye Metally, 1980, No.10, P.56-59.
22. Vanyukov A.V., Zaitsev V.J., Tsesarsky V.S., Gorbunov S.A. Solubility of Metals in Slags from Nickel-containing Copper Mattes // Tsvetnye Metally. - 1981. – No.3. - P. 24
23. A.V. Vanyukov, A.D. Vaskevich, L.I. Ditiatovsky, N.A. Miklin, I.I. Kirillin. Study of Equilibrium Oxygen Pressure Above Slags and Effect Thereof on Non-ferrous Metals Loss // Multipurpose Use of Mineral Raw Material, 1981, No.10, P. 26-31
24. V.V. Vanyukov, A.D. Vaskevich. Physicochemical Principles of Bath Smelting Process // Izv. VUZov (Colleges News). Tsvetnaia Metallurgia.–1982.–No.6.–P.20-28.
25. Statistical Measuring Technique for Oxygen Activity and Thereof Application for Fe-O-SiO₂ System / Vaskevich A.D., Vanyukov A.V., Ditiatovsky L.I. et al.// Izv. VUZov (Colleges News). Tsvetnaia Metallurgia. -1983. –No.2. – P.67-70.
26. Raimbekov N.E., Bystrov V.P., Vanyukov A.V. Study of Sulphides and Slag' Magnetite Interaction//Tsvetnye Metally. -1983. –No.8.- P.19-21
27. Study of Copper and Nickel Solubility in Rich Ferro-silicate Slags. / Ditiatovsky L.I., Vaskevich A.D., Vanyukov A.V., Miklin N.A. et al. // Izv. VUZov (Colleges News). Tsvetnaia Metallurgia.-1983. – No.5. – P.16-20
28. Zaitsev V.J., Vanyukov A.V., Genevska T.N. et al. Concerning Lead Losses to Slags at Conventional and Autogenous Processes. – Tsvetnye Metally. 1982. No.11. P. 25-29
29. Vanyukov A.V., Makhov I.E., Sorokin M.L. Routs of Decreasing Non-ferrous Metals Loss to Slags in Smelting Units - M.: CNIICvetmet (Central R&D Institute of Non-ferrous Metallurgy), 1987.-56 p.
30. Kolosov A.G., Stupin A.V., Fedorov A.N., Vanyukov A.V. Ferro-silicate Slags Viscosity// Tsvetnye Metally. – 1987. – No.3, P. 44-47
31. Kirillin I.I., Zaitsev V.J., Li V.J., Grechko A.V., Meierovich E.V., Vanyukov A.V. Drop Washing of Liquid Slag // Tsvetnye Metally. – 1987. – No.3.- P. 39-43

Author's Certificates & Patents

1. A.C. No.80507 (USSR) dated 20.01.1949. Method of Processing of Sulphide Copper and Copper-Nickel Ore and Concentrates / A.V. Vanyukov. – Published in BI, 1964, No.21. P.105.
2. USSR A.C. No.473886. Furnace for Continuous Bath Smelting of Sulphide Materials //BI. 1975. №22. (Co-authored by Vanyukov A.V., Kunaev A.M., Takezhanov S.T., Bystrov V.P. et al.)
3. USSR A.C. No.510842. Method of Sulphide Materials Continuous Smelting. 1975. (Co-authored by Vanyukov A.V., Mechev V.V., Bystrov V.P. et al.)
4. USSR A.C. No.1307865, MKI S22V 11/02. Method of Sulphide Copper and Polymetallic Raw Material Processing. 1986. (Co-authored by Vanyukov A.V., Bystrov V.P., Bruek V.N., Tokar L.L., Zhalelev R.Z.)
5. Author's Certificate No.790800 for Invention: 'Pyrometallurgical Method of Continuous Processing of the Oxidized Non-ferrous and Ferrous Raw Materials'. Authors: Vanyukov A.V., Romanets V.A., Tulin N.A., Vegman E.F., Bystrov V.P., Vaskevich A.D., Kremnevsky S.B. Registered in the USSR State Register of Inventions, on August 21, 1980.
6. Author's Certificate No.1162228 for Invention: 'Method of Iron Ore Reduction in Liquid Slag Bath'. Authors: Romanets V.A., Vanyukov A.V., Bystrov V.P., Gursky G.L., Ryzhonkov D.I., Glovatsky A.B., Vaskevich A.D. Registered in the USSR State Register of Inventions, on February 15, 1985.
7. Author's Certificate No.1381998 for Invention: 'Furnace for Iron Ore Continuous Bath Smelting'. Authors: Romanets V.A., Vanyukov A.V., Bystrov V.P., Usachev A.B., Valavin V.S., Pozhivanov A.M., Grebennikov V.R. Registered in the USSR State Register of Inventions, on November 15, 1987.
8. Author's Certificate No.1300944 for Invention: 'Method of Metal and Slag Melting at Bath Smelting Process'. Authors: Vegman E.F., Romanets V.A., Vanyukov A.V., Glovatsky A.B., Kamenetsky A.E. Registered in the USSR State Register of Inventions, on December 1, 1986.
9. Author's Certificate No.902471 for Invention: 'Method of Sulphide Materials' Continuous Smelting'. Authors: Vanyukov A.V., Bystrov V.P., Zaitsev V.J., Kunaev A.M., Kozhakhmetov S.M., Takezhanov S.T., Meierovich V.B., Nagibin V.D., Aleksandrov P.A., Kolesnikov B.I., Khagazheev D.T. Registered in the USSR State Register of Inventions, on October 1, 1981.
10. Author's Certificate No.510842 for Invention: 'Method of Sulphide Materials' Continuous Smelting'. Authors: Vanyukov A.V., Mechev V.V., Bystrov V.P., Ezhov E.I., Vasiliev M.G., Zaitsev V.J., Romanets V.A., Ivanov V.V., Golik S.J., Grin-Gnatovsky E.S., Grechko A.V., Savin I.V., Kozhakhmetov S.M., Meierovich V.B. Registered in the USSR State Register of Inventions, on December 18, 1975.
11. Author's Certificate No.1135195 for Invention: 'Method of Iron Reduction from Oxides in Liquid Slag Bath'. Authors: Romanets V.A., Vanyukov A.V., Bystrov V.P., Gursky G.L., Ryzhonkov D.I., Glovatsky A.B., Vaskevich A.D. Registered in the USSR State Register of Inventions, on September 15, 1984.
